COLLEGE: COLLEGE/ [REDACTED] Y

PROJECT TITLE

Digital portfolio

AGENDA

1. Problem Statement
2. Project Overview
3. End Users
4. Tools and Technologies
5. Portfolio design and Layout
6. Features and Functionality
7. Results and Screenshots
8. Conclusion
9. Github Link

PROBLEM STATEMENT

A problem statement is a clear and concise description of a problem or challenge that needs to be addressed. It typically includes:

- 1. Description of the issue**
- 2. Impact or consequences of the problem**
- 3. Goals or objectives for solving the problem**

PROJECT OVERVIEW

A project overview is a brief summary that provides an introduction to a project, including:

1. Project goals and objectives
2. Scope and deliverables
3. Key stakeholders and team members
4. Timeline and milestones

The purpose of a project overview is to:

1. Provide context and background information
2. Outline the project's purpose and objectives
3. Help stakeholders understand the project's scope and expectations

WHO ARE THE END USERS?

End users are the individuals or groups who will ultimately use or interact with a product, service, or system. They are the target audience or customers.

In the context of a project, identifying end users helps to:

- 1. Understand their needs and requirements**
- 2. Design solutions that meet their expectations**
- 3. Ensure usability and user experience**

TOOLS AND TECHNIQUES

Tools and technologies refer to the software, hardware, and platforms used to develop, implement, and maintain a project or solution.

Examples of tools and technologies include:

Programming Languages

- 1. Java**
- 2. Python**
- 3. JavaScript**

Development Frameworks

- 1. React**
- 2. Angular**
- 3. Vue.js**

POTFOLIO DESIGN AND LAYOUT

Portfolio design and layout refer to the visual arrangement and organization of content in a portfolio, which showcases an individual's or organization's work, projects, and achievements.

FEATURES AND FUNCTIONALITY

Features

Features refer to the characteristics, functionalities, or attributes of a product, service, or system. They can include

Personality

Personality refers to the tone, voice, and character of a brand, product, or service. It encompasses:.

RESULTS AND SCREENSHOTS

Results refer to the outcome or findings of a particular process, experiment, or analysis. They can be presented in various formats, such

Screenshot typically refers to an image capture of a digital screen, often used to:

1. Document software issues
2. Showcase digital content
3. Share visual information

CONCLUSION

A conclusion is a summary or final thought that wraps up a discussion, report, or presentation. It typically:

- 1. Restates the main points**
- 2. Emphasizes key findings or takeaways**
- 3. Provides a final thought or recommendation**
